

# DesignRoute™

Training

**Omnicom**  
**Balfour Beatty**

After purchasing DesignRoute™, one of our in-house training sessions can help you to develop and enhance your DesignRoute™ skills and maximise the value of the software.

DesignRoute™ handles horizontal and vertical functionality separately, allowing each module to be used individually or together in one package.

To reflect this there are two training courses, DesignRoute™ Vertical and DesignRoute™ Horizontal. The courses can be taken separately or combined if required.

### Course overview

An individual DesignRoute™ course is delivered over one day with the combined course lasting 1.5 days.

The courses are a mix of explanations and demonstrations of the software combined with a series of exercises. This format provides delegates with plenty of extensive supervised hands on experience of using DesignRoute™.

At the end of the course each delegate will be presented with a certificate to confirm their attendance and participation.

Delegates are also provided with comprehensive course notes to take away for future reference.

We recommend a maximum class size of four to ensure each delegate receives a high level of support from the tutor and has access to the appropriate equipment.

### What you will learn

- Understanding and configuration of the DesignRoute™ interface
- Entry of survey data
- Importing and exporting data
- Setting up and creating a design
- Plotting of completed designs

### Logistics:

- Both courses can be delivered from our office in Raynesway, Derby or on-line via our ReadyTech virtual classroom
- If you require the course to be held at an alternative location please contact us for information and prices

### Full day course

- The full-day course starts at 9.30am and finishes at 4.30pm.

### Half day course

- The half-day course starts at 9.30am and finishes at 12.30pm
